Hi Xing and Xiao,

I understand your concerns and thank you for your patience. I will certainly pass along your email as far up as I can. I am not sure that this will help with speeding up the process but I will try.

Best,
Gloria

Dear Gloria,

My name is Xing Han and I am Xiao's manager in IFF. I asked Xiao to copy me on her previous email so that I could have this opportunity to join the conversation. I am certain that your colleagues in EPA are working extremely hard on all the cases in hands and I understand certain processes need to be followed for issuing a non-order SNUR.

I just would like to add that IFF agreed to the terms of the intended SNUR in November 2017. Since then we have been pretty much waiting for the issuance of the SNUR without any knowledge how

long the wait is going to be. It looks like the situation remains the same for us after almost 8 months. IFF has invested significantly on this R&D material. So each day of passing would mean a lost commercial opportunity for the company, and would in a way significantly hinder the company's willingness to invest in future R&D projects.

I wonder if my feedback could make any difference in EPA's review process regarding this particular PMN. If needed, I am more than happy to communicate directly to any management within the EPA that is willing to listen to our case.

Thanks,

Xing

Hi Xiao,

No problem, the email is disregarded. Unfortunately, I don't have much of an update. The non-order SNUR not likely pairing is a new process and the process to draft brand new documents for public review is still taking some time. There is a lot of review across the agency and everyone is working very diligently on the case to make sure that we can get the not likely determination out as soon as possible.

Best,
Gloria

Dear Gloria,

If you received an email (shown below) from me a few minutes ago regarding the inquiry on PMN case P-16-0510, please ignore the attachment which was not relevant to the topic. The attachment was inadvertently pasted by accidental striking of wrong shortcut keys. I did try to recall the message but not sure if the recall was successful.

I apologize for the confusion.

Looking forward to hearing from you regarding the status of PMN case P-16-0510.

Thanks.

Best regards,

Xiao

Dear Gloria,

I am writing to follow up on the status of PMN case P-16-0510.

As we have been waiting for a few months for the SNUR to be published, we are wondering if you might have any information on the approximate timing of SNUR publication.

I have recently submitted a new suspension request for the PMN review, setting the expiry date to Sep 01, 2018. It would be much appreciated if you could share some information on the progress of the SNUR.

Thank you very much for your time.

Best regards,

Xiao

Hi Xiao,

As we discussed on the phone. The SNUR will also include:

1. Import only in a solution with a maximum percent in formulation of 50%
2. Use as a deodorizer in industrial, commercial, and household consumer products.

Best,
Gloria

Hi, Gloria,

Thank you very much for your note.

Earlier this afternoon I have submitted a suspension request via CDX to your attention. The requested suspension period is till Jun 01, 2018. Please let me know if the CDX submission would not reach you.

Thanks again.

Best regards,

Xiao

Hi Xiao,

I hope this email finds you well. As Adam noted, your review period will expire on the 15th. Would you like to suspend the review period while we are working towards publishing the rule. Feel free to call if you have any questions.

Best,
Gloria

Hi, Adam,
Thank you very much for the note. I confirm the date of 4/15/18 is correct. If more time is needed, I will request suspension again when it is close to the date.
I look forward to working with Gloria on P-16-0510.
Thanks again.
Best regards,
Xiao

Hi Xiao,

Thank you for your suspension request submitted through CDX for P-16-0510. I just put it in and wanted to confirm that the review period is set to expire on 4/15/18. Also, I wanted to let you know that I will be going on detail for the next 4 months, and Gloria Odusote will take over as program manager for the final steps. I've cc'ed her on this email, in case you have any questions.

Thanks,
Adam
